The Laboratory Investigations. 121

AP Biology Course and Exam Description

Biology recognizes the cell as the basic unit of life, genes as the basic unit of heredity, and evolution as the engine that propels the creation and extinction of species. Living organisms are open systems that survive by transforming energy and decreasing their local entropy to maintain a stable and vital condition defined as homeostasis.

Biology - Wikipedia

The staff at Absolutely Fish consists of 10 full-time personnel with bachelor degrees in Marine Sciences or Freshwater Fisheries Management, 9 full-timers with at least six years experience in aquarium keeping and husbandry, and approximately 12 part-time employees, mostly students studying biology or the aquatic sciences.
