use proof by contradiction. Suppose our proof system is not sound. Then there is some proof for

which the conclusion  $S$  is not a tautological consequence of premises  $P_1; \dots; P_n$ . And this in turn means that some step in the proof went wrong, that is, that there is a sentence in the proof that is not a tautological consequence of the premises.

**PHIL12A Section answers, 28 Feb 2011 - UC Berkeley**

We adopt a formal language for making statements, since natural languages (like English, for example) are far too vague and ambiguous for us to analyze sufficiently. Armed with the formal language, we will be able to model the notions of truth, proof and consequence, among others. While logic is technical in nature, the key concepts in the ...
