In her dissertation, Academic Redshirting: Perceived Life Satisfaction of Adolescent Males, Jones looked at how boys fare in adolescence depending on whether or not their parents opted to redshirt them in kindergarten. Rather than focus on academic success, which has been covered by a number of other studies, Jones wanted to learn about her subjects' overall life satisfaction—in other words ...

Evolutionary thought, the conception that species change over time, has roots in antiquity – in the ideas of the ancient Greeks, Romans, and Chinese as well as in medieval Islamic science. With the beginnings of modern biological taxonomy in the late 17th century, two opposed ideas influenced Western biological thinking: essentialism, the belief that every species has essential ...

In computer science, functional programming is a programming paradigm—a style of building the structure and elements of computer programs—that treats computation as the evaluation of mathematical functions and avoids changing-state and mutable data. It is a declarative programming paradigm in that programming is done with expressions or declarations instead of statements.
