Why a Scientific Format? The scientific format may seem confusing for the beginning science writer
due to its rigid structure which is so different from writing in the humanities. One reason for using
this format is that it is a means of efficiently communicating scientific findings to the broad
community of scientists in a uniform manner.

he story of Haeckel's embryos is different in an important way from that of the other chapters in Jonathan Wells' book. As the other authors show, Wells has distorted ideas that are fundamentally true in order to make his point: all his rhetoric to the contrary, Archaeopteryx is a transitional fossil, peppered moths and Darwin's finches do tell us significant things about evolution, four-winged ...
