In this lesson, we'll be reviewing the major parts of frog anatomy, including the external and internal structures you would expect to see during a dissection.

Frog Anatomy: External & Internal - Study.com

Spiritual Anatomy. Many cultural traditions contain an esoteric thread describing what might be referred to as the anatomy of the human soul. There are the ka and ba of Egyptian mythology, the meridians of acupuncture, the chakras and nadis of yoga, the sephirot of Hebrew cabbalistic tradition, and the etheric and astral bodies of western esoteric lore.

The Roots of Consciousness: Folklore, Spiritual Anatomy

There are total 11 systems in human body containing their specific organs hence are called as organ systems. These are muscular system, digestive system, integumentary system, skeletal system, circulatory system, respiratory system, lymphatic system, endocrine system, excretory system and reproductive system. All these systems contain their specific organs.

What are the different body systems in human ... - Socratic

The heart is a muscular organ in most animals, which pumps blood through the blood vessels of the circulatory system. Blood provides the body with oxygen and nutrients, as well as assisting in the removal of metabolic wastes. In humans, the heart is located between the lungs, in the middle compartment of the chest.. In humans, other mammals, and birds, the heart is divided into four chambers ...

Interview with Spencer Newcomer and Attorney Christopher Ferro, Esq. by Marty Hayes. A note to readers: In our January 2019 edition of this online journal, we told the story of Spencer Newcomer who after months of harassment by several neighbors was told by one, David Wintermyer, "I am going to kill you," during a confrontation on the street.

The Anatomy of a Self-Defense Shooting, Pt. 2

Many of you have probably heard of the "alkaline diet." There are a few different versions of the acid-alkaline theory circulating the internet, but the basic claim is that the foods we eat leave behind an "ash" after they are metabolized, and this ash can be acid or alkaline (alkaline meaning more basic on the pH scale).

The Acid-Alkaline Myth: Part 1 | Chris Kresser
