The last universal common ancestor (LUCA) is the most recent organism from which all organisms now living on Earth descend. Thus it is the most recent common ancestor of all current life on Earth. The LUCA is estimated to have lived some 3.5 to 3.8 billion years ago (sometime in the Paleoproterozoic era). The earliest evidence for life on Earth is graphite found to be biogenic in 3.7 billion-year ...

David, How do you and your wife split expenses such as grocery shopping? Do you have children? My husband and I are living separately under the same roof, however, he still expects me to do the shopping for the household which, I think is ridiculous given the fact that I only make \$14/hr and he makes \$170,000/yr.

Checklist: Living Separately Under the Same Roof

Air pollution occurs when harmful or excessive quantities of substances including gases, particles, and biological molecules are introduced into Earth's atmosphere. It may cause diseases, allergies and even death to humans; it may also cause harm to other living organisms such as animals and food crops, and may damage the natural or built environment. ...

The thoughts that are shared in this passage is motivating and a reminder which we ought to practice in our daily christian life. Seldom I have time for reading the word of God or give priority to god due to which I bear the consequences of MY will. God’s will is something I tend to forget due to the fast pace of life. This passage has been very thought provoking to me. I thank god for this ...

This is not always the case. The individuals that survive are not always the strongest, fastest, or smartest. Therefore, "survival of the fittest" may not be the best way to describe what natural selection really is as it applies to evolution. Darwin did not mean it in these terms when he used it in his book after Herbert first published the phrase.
