The tree of life or universal tree of life is a metaphor, model and research tool used to explore the evolution of life and describe the relationships between organisms, both living and extinct, as described in a famous passage in Charles Darwin's On the Origin of Species (1859).. The affinities of all the beings of the same class have sometimes been represented by a great tree.

While he himself is a confirmed compatibilist, even a determinist, in "On Giving Libertarians What They Say They Want," Chapter 15 of his 1978 book Brainstorms, Daniel Dennett articulated the case for a two-stage model of free will better than any libertarian. His "Valerian" model of decision

making, named after the poet Paul Valéry, combines indeterminism to generate alternative ...

Daniel Dennett - The Information Philosopher

Alfred Russel Wallace OM FRS (8 January 1823 – 7 November 1913) was a British naturalist, explorer, geographer, anthropologist, and biologist. He is best known for independently conceiving the theory of evolution through natural selection; his paper on the subject was jointly published with some of Charles Darwin's writings in 1858. This prompted Darwin to publish his own ideas in *On the ...*

Preface to the Home Education Series. The educational outlook is rather misty and depressing both at home and abroad. That science should be a staple of education, that the teaching of Latin, of modern languages, of mathematics, must be reformed, that nature and handicrafts should be pressed into service for the training of the eye and hand, that boys and girls must learn to write English and ...

The Mis-portrayal of Darwin as a Racist. By - June 24, 2006 There is a growing effort among opponents of evolution to portray Charles Darwin as a racist, and evolutionary theory as morally reprehensible, even to claim that Darwinism "provided Hitler and the Nazis with a scientific justification for the policies they pursued once they came to power."

The Mis-portrayal of Darwin as a Racist

God or Natural Processes. When considering how life began, there are only two options. Either life was created by an intelligent source (God) or it began by natural processes.
