Credits: 1. Prerequisite: Middle school biology and chemistry. Recommended: 9th or 10th Test Prep: CLEP Biology This course covers the basic material for this exam, but this is considered a very hard test, and I would suspect more will need to be studied to learn everything required for this huge exam. It's worth the same as two college courses which is why it covers so much.

When the immune system functions normally, it produces a response intended to protect against harmful or foreign substances like bacteria, parasites, and cancerous cells. The response may include specific immune cells and/or antibodies. Autoimmune diseases arise when the immune system produces a response against one or more of the body's normal constituents as if they are harmful.
