- [Voiceover] Here we are in the default Mastercam interface. When using 3D modeling software, it's important to use a 3-button mouse. Many commonly used commands are attached to different mouse buttons. So a three button device will speed up your workflow as you grow confident with different Mastercam functions. Now to demonstrate the mouse, I'll need a little bit of geometry.

I taught myself how to program basic tool pathes but cant figure out inside or outside radius nor can any of the schooled people at my shop. The manual is so poorly translated (Hyundai) that I just dont get it... So If I have 2 inch DIA. stock and wanted like a 1/2 in radi either in or out how do I do this... G- code Seimans control (Hitrol) same as Mazak Much thanks
