Meta: Need to learn how protein synthesis works? We've got your complete guide to the process on our protein synthesis worksheet, including the difference between DNA and RNA, important misconceptions about mutations, and an explanation of the central dogma of biology.

Biology Games - BIOLOGY JUNCTION

There are many types of cells. In biology class, you will usually work with plant-like cells and animal-like cells. We say "animal-like" because an animal type of cell could be anything from a tiny microorganism to a nerve cell in your brain. Biology classes often take out a microscope and look at single-celled microbes from pond water.
