How can I write a little piece of text into a .txt file? I've been Googling for over 3-4 hours, but can't find out how to do it. fwrite(); has so many arguments, and I don't know how to use it. What's the easiest function to use when you only want to write a name and a few numbers to a .txt file?. Edit: Added a piece of my code.

Origins What is the purpose of the project? At the time of Go's inception, only a decade ago, the programming world was different from today. Production software was usually written in C++ or Java, GitHub did not exist, most computers were not yet multiprocessors, and other than Visual Studio and Eclipse there were few IDEs or other high-level tools available at all, let alone for free on the ...
