To decide to be an accountant is no more descriptive than deciding to be a doctor as there are a variety of specialty areas. Many accountants engage in the practice of public accounting, which involves providing audit, tax, and consulting services to the general public. To engage in the practice of public accounting usually requires one to be licensed.

National accounts or national account systems (NAS) are the implementation of complete and consistent accounting techniques for measuring the economic activity of a nation. These include detailed underlying measures that rely on double-entry accounting. By design, such accounting makes the totals on both sides of an account equal even though they each measure different characteristics, for ...

National accounts - Wikipedia

Accounting or accountancy is the measurement, processing, and communication of financial information about economic entities such as businesses and corporations. The modern field was established by the Italian mathematician Luca Pacioli in 1494. Accounting, which has been called the "language of business", measures the results of an organization's economic activities and conveys this ...
