Classroom Lessons. Bug Blitz - A Study in Biodiversity (T. Tomm, Havana Junior High, Havana, IL) In past years our district had money for field trips to local nature areas for the Butterfly Brigade project; however, budget cuts made it difficult to pay for transportation. I decided to adapt the project to a smaller level using our school garden, which is a quick walk to our front schoolyard!

Behe presents several examples of irreducibly complex systems to prove his point, but I'll just focus on one: the cilium. Cilia are hair-like structures, which are used by animals and plants to move fluid over various surfaces (for example, cilia in your respiratory tree sweep mucus towards the throat

and thus promote elimination of contaminants) and by single-celled organisms to move through ...

The side of a ship on which it was laden (that is loaded) was called the ladeboard, but its opposite, starboard, influenced a change in pronunciation to larboard. Then, because larboard was likely to be confused with starboard because of their similarity of sound, it was generally replaced by port.
