Facilitated communication (FC), supported typing, or hand over hand, is a discredited technique that attempts to facilitate communication by people with severe educational and communication disabilities. The facilitator holds or gently touches the disabled person's arm or hand during this process and attempts to help them move to type on a special keyboard.

An optical fiber is a flexible, transparent fiber made by drawing glass or plastic to a diameter slightly thicker than that of a human hair. Optical fibers are used most often as a means to transmit light between the two ends of the fiber and find wide usage in fiber-optic communications, where they permit transmission over longer distances and at higher bandwidths (data rates) than electrical ...

Number: 0352. Policy. Aetna considers any of the following serum tumor markers for the stated indication medically necessary: Prostate-specific antigen (PSA) for prostate cancer screening (see CPB 0521 - Prostate Cancer Screening), staging, monitoring response to therapy, and detecting disease recurrence ; Carcinoembryonic antigen (CEA) for any off the following:

Tumor Markers - Medical Clinical Policy Bulletins | Aetna

Hi Paul, Thanks for the comment. I've only had them for the last few years, I either didn't have them before that or didn't notice them. I panicked a little because I noticed hundreds of them all of a sudden, which seemed to appear all at once - I mean I had a couple before which I had all my life but I noticed a large increase of these tiny ones (which lead me to do some research).
