Test Information Guide. Test Information Guide. This test information guide provides a summary of concepts that are tested on the written examinations of the Forensic Scientist Trainee, Options A, B, and C jobs.

Test Information Guide - Illinois State Police Home Page

A metalloid is a type of chemical element which has properties in between, or that are a mixture of, those of metals and nonmetals. There is neither a standard definition of a metalloid nor complete agreement on the elements appropriately classified as such. Despite the lack of specificity, the term remains in use in the literature of chemistry.. The six commonly recognised metalloids are boron ...

Metalloid - Wikipedia

The periodic table, also known as the periodic table of elements, is a tabular display of the chemical elements, which are arranged by atomic number, electron configuration, and recurring chemical properties. The structure of the table shows periodic trends. The seven rows of the table, called periods, generally have metals on the left and non-metals on the right.
