Christian meditation is a term for a form of prayer in which a structured attempt is made to get in touch with and deliberately reflect upon the revelations of God. The word meditation comes from the Latin word meditari, which means to concentrate. Christian meditation is the process of deliberately focusing on specific thoughts (e.g. a biblical scene involving Jesus and the Virgin Mary) and ...

Genome editing, or genome engineering, is a type of genetic engineering in which DNA is inserted, deleted, modified or replaced in the genome of a living organism. Unlike early genetic engineering techniques that randomly inserts genetic material into a host genome, genome editing targets the insertions to site specific locations.. In 2018, the common methods for such editing use engineered ...

1. Adlerian Contribution to Contemporary Practice Question from Gil Levin (BOL): Alfred Adler's name is better known to today's therapists than are his ideas and methods. Your dedication to this body of work must be based on the belief that contemporary practice is diminished because Adler's contributions are not fully enough understood or used currently.
