A tile-matching video game is a type of puzzle video game where the player manipulates tiles in order to make them disappear according to a matching criterion. In many tile-matching games, that criterion is to place a given number of tiles of the same type so that they adjoin each other. That number is often three, and these games are called match-three games.

The problem persists after I tested multiple Codec Settings - seems like the codec isn't at fault. I think the third phone malfunctions because currently it's only in a test set-up without actual SIP Provider, just an elmeg 130j PBX.

SIP: No matching Codecs / 480 Temporarily not available

Introduction. Plants make food in their leaves using energy from the sun. How do they take the sun's energy and change it into food? They use a molecule called chlorophyll that is present in the leaves and makes them look green in color.
