Nervous System Quiz. The nervous system is your body's communication system. It tells your muscles to contract, it tells you when you are feeling pleasure or pain, stimulate the brain properly and you can be made to taste something without eating it.

Nervous System Quiz - Test Your Central Nervous System ...

The central nervous system contains the brain and spinal column and is used to control animal behavior based on input from the environment. The peripheral nervous system connects the central nervous system to all other parts of the body. The autonomic nervous system regulates the body's internal environment without the aid of conscious control. It is composed of two subdivisions, the sympathetic and the parasympathetic nervous systems.

AP Biology Notes: Nervous Systems - Kaplan Test Prep

Example Question #401 : Systems Physiology. Neurons are the functional unit of the nervous system. Dendrites of the neuron accept incoming action potentials and stimuli, and propagate the signal down the cell axon to stimulate other nearby neurons. Nephrons are the functional unit of the kidney.
