Visual impairment, also known as vision impairment or vision loss, is a decreased ability to see to a degree that causes problems not fixable by usual means, such as glasses. Some also include those who have a decreased ability to see because they do not have access to glasses or contact lenses. Visual impairment is often defined as a best corrected visual acuity of worse than either 20/40 or ...

Visual impairment - Wikipedia

Assistive technology is an umbrella term that includes assistive, adaptive, and rehabilitative devices for people with disabilities or elderly population while also including the process used in selecting, locating, and using them. People who have disabilities often have difficulty performing activities of daily living (ADLs) independently, or even with assistance.

Quatech - B&B Electronics

Various approaches have been employed over many years to distinguish human users of web sites from robots. While the traditional CAPTCHA approach of asking the user to identify obscured text in an image remains common, other approaches have also emerged. These approaches commonly require users to perform a task believed to be relatively easy for humans but difficult for robots.

Inaccessibility of CAPTCHA - World Wide Web Consortium
