Quantitative Analysis of Investor Behavior. Since 1994, DALBAR's Quantitative Analysis of Investor Behavior (QAIB) has measured the effects of investor decisions to buy, sell and switch into and out of mutual funds over short and long-term timeframes. These effects are measured from the perspective of the investor and do not represent the performance of the investments themselves.

About QAIB - Dalbar, Inc.

An "index fund" describes a type of mutual fund or unit investment trust (UIT) whose investment objective typically is to achieve approximately the same return as a particular market index, such as the S&P 500 Composite Stock Price Index, the Russell 2000 Index or the Wilshire 5000 Total Market Index. An index fund will attempt to achieve its investment objective primarily by investing in the ...

Currency News Trading focuses on Currency Trading of economic news releases and how to take advantage of the volatility after high impact Forex news in day to day trading, namely using spike, retracement, and pre-news trading methods. Since high impact economic indicators often have longer term effects, news trading is no longer limited to short-term, but long-term as well.

Currency News Trading

A stock market, equity market or share market is the aggregation of buyers and sellers (a loose network of economic transactions, not a physical facility or discrete entity) of stocks (also called shares), which represent ownership claims on businesses; these may include securities listed on a public stock exchange, as well as stock that is only traded privately.
