Abstract Conclusion Conclusion Expected results: "lawn" of bacteria growth References The purpose of this lab is to understand how transformation occurs, as well as the biological results and consequences that come from transformation; and to understand the importance of

### **Bacterial Transformation Lab by Lindsay Young on Prezi**

During this bacterial transformation lab, we inserted a plasmid containing a antibiotic-resistance

gene. The goal of the lab was to identify the plasmids because it was unknown which plasmids contained which genes. Each group had a different plasmid to test. We tested for ampicillin resistance, kanamycin resistance, and the presence of the GFP.
