Abstract. According to the newest report issued by the Guttmacher Institute, 926,200 abortions were performed in the US in 2014. A holistic approach which accounts for biblical, biological, and philosophical truths must conclude that these unborn represent human beings with full personhood.

Abortion: A Biblical, Biological, and Philosophical ...

You missed the mark a bit there. You pointed out that, "Intelligence is not equal throughout the races. Examples of this are evident in the inventiveness of a particular group, what technologies they create, the societal structure they create, their art and their sciences", a statement which in and of itself is a contradiction.

Evolution is change in the heritable characteristics of biological populations over successive generations. These characteristics are the expressions of genes that are passed on from parent to offspring during reproduction. Different characteristics tend to exist within any given population as a result of mutation, genetic recombination and other sources of genetic variation.

Evolution - Wikipedia

Framework Users. What critical infrastructure does the Framework address? Critical infrastructure (for the purposes of this Framework) is defined in Presidential Policy Directive (PPD) 21 as: "Systems and assets, whether physical or virtual, so vital to the United States that the incapacity or destruction of such systems and assets would have a debilitating impact on security, national ...
