Real-time business intelligence (RTBI) is a concept describing the process of delivering business intelligence (BI) or information about business operations as they occur. Real time means near to zero latency and access to information whenever it is required. This up-to-the-minute information lets organizations make smarter decisions and better understand their operations.

Real-time business intelligence - Wikipedia

ANALYTICS. Enterprise Analytics and Big Data Analytics provide the tools to do just that. As the business world generates ever more information using the Internet of Things (IoT) and Artificial Intelligence (AI), we need to find ways to utilize this knowledge.
