Vegetative reproduction. is a form of asexual reproduction in plants. It does not involve flowers, pollination and seed production. Instead, a new plant grows from a vegetative part, usually a stem, of the parent plant.

Plants: An Introduction to Vegetative Reproduction ...

A junction is definitely not the same thing as a directory symbolic link, although they behave similarly. The main difference is that, if you are looking at a remote server, junctions are processed at the server and directory symbolic links are processed at the client. Also see Matthew's comment on the fact that this means symbolic links on the local file system can point to remote file systems.

windows - "directory junction" vs "directory symbolic link ...
