How can classroom reading instruction help poor readers — indeed, all students — become more like good readers? Research suggests that the answer may lie in providing students with instruction that both teaches them the comprehension strategies that work so well for good readers and helps them to develop the necessary metacognitive awareness of how and when to use these

First normal form (1NF) is a property of a relation in a relational database.A relation is in first normal form if and only if the domain of each attribute contains only atomic (indivisible) values, and the value of each attribute contains only a single value from that domain. The first definition of the term, in a 1971 conference paper by Edgar Codd, defined a relation to be in first normal ...
