Propositional calculus is a branch of logic. It is also called propositional logic, statement logic, sentential calculus, sentential logic, or sometimes zeroth-order logic. It deals with propositions (which can be true or false) and argument flow. Compound propositions are formed by connecting propositions by logical connectives. The propositions without logical connectives are called atomic ...

Abstract This specification defines the Mathematical Markup Language, or MathML. MathML is a markup language for describing mathematical notation and capturing both its structure and content.

Mathematical Markup Language (MathML) Version 3.0 2nd Edition

Summary. This is an example of performing multiple linear regression and using the persp() function to plot the prediction surface and the positions of the actual data points.. The Cobb-Douglas production function. One form of the Cobb-Douglas production function is: $P = bL^\alpha K^{1-\alpha}$. where P is a measure of production, L is a measure of labor, and K is a measure of capital.
