Purpose. To introduce students to the genetic information stored in DNA within the human cell nucleus. Context. The goal of this lesson is to introduce students to the human cell and its DNA as the genetic information that governs how the cell will function.

From Cell to DNA - Science NetLinks

By the end of elementary school, students should know that by breathing, people take in the oxygen they need to live. This basic knowledge allows middle-school students to develop a more sophisticated understanding of how respiration works in terms of basic macroscopic (e.g., major organs involved) and microscopic (e.g., cellular) processes involved with breathing.
