Economics is much broader than the study of recessions and inflation or stocks and bonds. Economists study decision making and incentives, such as the incentives for a firm to stop polluting and how taxes create incentives for labor market and savings behavior.

### **Economics < Yale University**

In economics, "rational expectations" are model-consistent expectations, in that agents inside the model are assumed to "know the model" and on average take the model's predictions as valid. Rational expectations ensure internal consistency in models involving uncertainty. To obtain consistency within a model, the predictions of future values of economically relevant variables from the model ...
