X² (chi squared) - This is just the name of the analysis. Σ - This is an operator that says to sum all the values to the right. o - These are values you measure or observe.

A.P. Biology - phsgirard.org

The expression "hands-on, minds-on" summarizes the philosophy we have incorporated in these activities - namely, that students will learn best if they are actively engaged and if their activities are closely linked to understanding important biological concepts. Many of our activities are explicitly aligned with the Next Generation Science Standards, as indicated by (NGSS) in the descriptions ...

Hands-on Activities for Teaching Biology to High School or ...

Plants make their own food using photosynthesis. This activity will teach students about the crucial role photosynthesis plays in the life of a plant.

primarily phospholipid bilayer, hydrophilic with a polar head consisting of a phosphate group and glycerol, hydrophobic with a non polar tail consisting of fatty acids, not very rigid (eukaryotic plasma membranes contain sterols and are more rigid with the exception of mycoplasma) protein molecules through the membrane.

Biology Exam Study Guide Flashcards | Quizlet

Most curricular materials in TeachEngineering are hierarchically organized; i.e., most hands-on activities are part of lessons, lessons are grouped into multiday curricular units and these again are bundled into subject areas. Some activities or lessons, however, were developed to stand alone, and hence, they might not conform to this strict hierarchy.
