Health care Finance Test 1 Flashcards | Quizlet

In economics, a model is a theoretical construct representing economic processes by a set of variables and a set of logical and/or quantitative relationships between them. The economic model is a simplified, often mathematical, framework designed to illustrate complex processes. Frequently, economic models posit structural parameters. A model may have various exogenous variables, and those ...

Economic model - Wikipedia

Management skills can be defined as certain attributes or abilities that an executive should possess in order to fulfill specific tasks in an organization. They include the capacity to perform executive duties in an organization while avoiding crisis situations and promptly solving problems when they occur.

Management Skills - Types and Examples of Management Skills

Economies of Scale refer to the cost advantage experienced by a firm when it increases its level of output. The advantage arises due to the inverse relationship between per-unit fixed cost and the quantity produced. The greater the quantity of output produced, the lower the per-unit fixed cost. Types, examples, guide

Federal law prohibits managers from using any selection device that cannot be shown to be directly related to successful job performance. This constraint applies to entrance tests, too: Managers must be able to demonstrate that, once on the job, individuals with high scores on such a test outperform individuals with low scores.
