10-1 Three-Dimensional Pentominoes Athree-dimensional pentomino is a figure formed by five identical cubes arranged so that each cube shares a common face with at least

### **Reteach 10-1 Solid Geometry - dwa.lpsd.org**

"This was a great course. I learned a lot about Geometry and am excited to use what I learned here in my high school. It was definitely better than some of the other Universal courses I took because this instructor, Mr. Clark, was more organized and thorough with his lessons, and it was easier to understand him than other university's instructors."
