Fear is a potent human emotion that can sabotage success for even the brightest minds and biggest organisations. It can also undermine an organisations ability to harness the potential of those ...

Great Leaders Build A Culture of Courage In A Climate Of Fear

In industry, product lifecycle management (PLM) is the process of managing the entire lifecycle of a product from inception, through engineering design and manufacture, to service and disposal of manufactured products. PLM integrates people, data, processes and business systems and provides a product information backbone for companies and their extended enterprise.

Product lifecycle - Wikipedia

Clearly, there's more to success than managing up and sideways: leading a high-performance functional team accounted for 30 percent of the explained variation in our CMOs' business impact, and 19 percent for career success, and managing yourself accounted for the remaining variation. Mobilizing subordinates, in particular, is the base executives need to build from if they want to establish ...
