Wireless Communication . Wireless communication uses radio frequencies (RF) or infrared (IR) waves to transmit data between devices on a LAN. For wireless LANs, a key component is the wireless hub, or access point, used for signal distribution (see Figure 8-8).. Figure 8-8 Wireless Network . To receive the signals from the access point, a PC or laptop must install a wireless adapter card ...

Wireless Communication > CCNA: Network Media Types

* There are some reports about the command of "All hosts in the core and on the local LAN should be able to access the Public web server" saying that the correct command should be "access-list 100 permit ip any any", not "access-list 100 permit ip any host (IP of Public Web Server)".
