Relationship between cost of goods sold and sales is called cost of goods sold ratio. It is also called cost of sales to revenue ratio. It is the part of ratio analysis for checking the efficiency of business. You know that cost of goods sold is the main part of total business expenses. If you have to sell, it means, you have to buy or use stock in your store which you have bought in past.

Backflush accounting is a certain type of "postproduction issuing", it is a product costing approach, used in a Just-In-Time (JIT) operating environment, in which costing is delayed until goods are finished. Backflush accounting delays the recording of costs until after the events have taken place, then standard costs are used to work backwards to 'flush' out the manufacturing costs.

### **Backflush accounting - Wikipedia**

You can display negative numbers by using the minus sign, parentheses, or by applying a red color (with or without parentheses). Select the cell or range of cells that you want to format with a negative number style.
