IOS supports the use of the pipe character (represented with the | character) to filter the output of the show commands. The pipe function takes the output of the command and sends it to another function, such as begin or include. This way, you can filter the output to find the section of the output that interests you.

**Pipe character in IOS - study-ccna.com**

The Cisco Certified Network Associate Routing & Switching certification (CCNA R&S) is one of the strongest associate level IT certifications in the world and proves your ability to install, configure, operate and troubleshoot enterprise networks and Cisco IOS.
