GCSE students need to be able to work out the equation of a graph from what it looks like. If it's a straight line graph you just need to look for two things.

### **Graphs and Charts - Maths with Graham**

A typical Venn diagram looks like the picture on the left. One circle represents the set A, whilst the other represents B. The section where the two circles cross over is for all things that are contained in both sets, i.e. it is  $A \cap B$ . The box is called the universal set and is denoted by the Greek letter  $\xi$ , and it contains all of the objects we're concerned with, including objects that ...
