About This Quiz & Worksheet. The quiz and worksheet duo for this lesson will help you to understand the intricate processes of chemical reactions.

### **Quiz & Worksheet - Chemical Reactions | Study.com**

A chemical reaction is a process that leads to the chemical transformation of one set of chemical substances to another. Classically, chemical reactions encompass changes that only involve the positions of electrons in the forming and breaking of chemical bonds between atoms, with no change to the nuclei (no change to the elements present), and can often be described by a chemical equation.
