The easiest way is to purchase a kit, such as the Green Science Windmill Generator. A small electric fan can be used to simulate blowing wind. To build one: Windmill with shaft Small electric generator Belt between windmill shaft and generator shaft Voltmeter to measure output (Radio Shack, etc ...

The Answer is Blowing in the Wind | Science project ...

This paper summarizes recent evidence on what achievement tests measure; how achievement tests relate to other measures of "cognitive ability" like IQ and grades; the important skills that achievement tests miss or mismeasure, and how much these skills matter in life.

Hard evidence on soft skills - ScienceDirect

Through a combination of fear of failure (perceived or real), lack of preparation, and a possible poor testing history, many high school and college students like you may have what the ADAA calls, "test anxiety". If you don't feel you have experienced test anxiety, maybe you just sense an uneasiness during test preparation and test taking and would like to learn to address it.
