97 MOLECULAR BASIS OF INHERITANCE 5'-end of ribose sugar, which is referred to as 5'-end of polynucleotide chain. Similarly, at the other end of the polymer the ribose has a free 3'-OH group which is referred to as 3' - end of the polynucleotide chain. The backbone in a polynucleotide chain is formed due to sugar and

Molecular Basis of Inheritance - National Council Of ...

In object-oriented programming, inheritance is the mechanism of basing an object or class upon another object (prototype-based inheritance) or class (class-based inheritance), retaining similar implementation. Also defined as deriving new classes (sub classes) from existing ones (super class or base class) and forming them into a hierarchy of classes.. In most class-based object-oriented ...

Inheritance (object-oriented programming) - Wikipedia

Transgenerational epigenetic inheritance is the transmission of information from one generation of an organism to the next (i.e., parent-child transmission) that affects the traits of offspring without alteration of the primary structure of DNA (i.e., the sequence of nucleotides) —in other words, epigenetically. The less precise term "epigenetic inheritance" may be used to describe both ...

5 Reasons to Prefer Composition over Inheritance in Java On composition, a class, which desire to use functionality of an existing class, doesn't inherit, instead it holds a reference of that class in a member variable, that's why the name composition.

5 Reasons to Use Composition over Inheritance in Java and OOP

At the line (*) we take eat from the prototype (animal) and call it in the context of the current object. Please note that `.call(this)` is important here, because a simple `this.__proto__.eat()` would execute parent eat in the context of the prototype, not the current object.. And in the code above it actually works as intended: we have the correct alert.. Now let's add one more object to the chain.

Glaucoma is a disease where the optic nerve dies. We are not sure why or how this happens (there are many mechanical, vascular, and biochemical theories) but high intraocular pressure certainly seems to be associated, if not entirely the cause, of optic nerve death. Glaucoma is one of the leading causes of preventable blindness in [...]
