Biology 1 & 1A

What Does Differential Reinforcement Look Like? Imagine that you are observing an interaction between a mother and her son at a grocery store. The mother and child walk past an aisle full of candy.

Differential Reinforcement: Theory & Definition - Study.com

The animal cell coloring worksheet has been used with freshman biology for years as a supplemental way to learn the parts of the cell. This is often assigned as a review or reinforcement exercise. Intro biology classes have unique challenges for me, one of which being that they don't have a textbook.

Evolutionary biology is the subfield of biology that studies the evolutionary processes that produced the diversity of life on Earth, starting from a single common ancestor. These processes include natural selection, common descent, and speciation. The discipline emerged through what Julian Huxley called the modern synthesis (of the 1930s) of understanding from several previously unrelated ...

In evolutionary biology, a spandrel is a phenotypic characteristic that is a byproduct of the evolution of some other characteristic, rather than a direct product of adaptive selection. The term "spandrel" originated as an architectural word for the roughly triangular space between the tops of two adjacent arches and the ceiling. These spaces were not actually utilized until later on, when ...
