Hartzell structural composite blades are composed of a metal blade shank retention section onto which is molded a low-density foam core that supports built-up layers of composite laminate. Beyond the obvious advantage of a substantial weight reduction over aluminum blades, there are additional advantages to the use of structural composite blades.

No these spiral blades won't work if your saw requires pins, because these have a plain end. To my knowledge spiral blades are not made with pins, but I would be happy to know if anyone else has found them. A few saws that use pins have an adapter for plain ends (like the Shop Fox). If that were the ...

Some could argue it took us forever to come out with the TravelShell for many reasons, including: a) We're so busy we don't travel. b) We have plenty of HeadBlades, so if one breaks, we just grab another. c) We treat our HeadBlades like royalty and have nice padded personalized travel compartments for them. d) We're lazy and just didn't make one. In all honesty answers a, b, and d are pretty much ...

The oldest known sundial is from Egypt; it dates back to around 1500 BC (19th Dynasty), and was discovered in the Valley of the Kings in 2013. Sundials have their origin in shadow clocks, which were the first devices used for measuring the parts of a day. Ancient Egyptian obelisks, constructed about 3500 BC, are also among the earliest shadow clocks.
