The California Smog Check Program requires vehicles that were manufactured in 1976 or later to participate in the biennial (every two years) smog check program in participating counties. The program's stated aim is to reduce air pollution from vehicles by ensuring that cars with excessive emissions are repaired in accordance with federal and state guidelines.

California Smog Check Program - Wikipedia

Motor vehicles. Due to its preexisting standards and particularly severe motor vehicle air pollution problems in the Los Angeles metropolitan area, the U.S. state of California has special dispensation from the federal government to promulgate its own automobile emissions standards. Other states may choose to follow either the national standard or the stricter California standards.

United States emission standards - Wikipedia

Accessibility for all students is a core principle of Smarter Balanced. For students with special needs or those learning English, Smarter Balanced assessments have been designed so that any student can participate and demonstrate what they know in a way that can be accurately measured.
