The story of Haeckel's embryos is different in an important way from that of the other chapters in Jonathan Wells' book. As the other authors show, Wells has distorted ideas that are fundamentally true in order to make his point: all his rhetoric to the contrary, Archaeopteryx is a transitional fossil, peppered moths and Darwin's finches do tell us significant things about evolution, four-winged ...

Preface to the Home Education Series. The educational outlook is rather misty and depressing both

at home and abroad. That science should be a staple of education, that the teaching of Latin, of modern languages, of mathematics, must be reformed, that nature and handicrafts should be pressed into service for the training of the eye and hand, that boys and girls must learn to write English and ...

Matrilineality is the tracing of kinship through the female line. It may also correlate with a social system in which each person is identified with their matriline – their mother's lineage – and which can involve the inheritance of property and/or titles. A matriline is a line of descent from a female ancestor to a descendant (of either sex) in which the individuals in all intervening ...
