great lesson! I will definitely try this one, but could you comment on any issues that come up with pipe cleaner measurements? Were there any problems measuring curvature in the "business" or "party" sections of hair cuts when the hair is combed over or especially in cases when its curly or hard to see?

Earlier in Lesson 6, four kinematic equations were introduced and discussed. A useful problem-solving strategy was presented for use with these equations and two examples were given that illustrated the use of the strategy. Then, the application of the kinematic equations and the problem-solving strategy to free-fall motion was discussed and illustrated.
