In the case of basic CS solution where sodium hydrogen bicarbonate was added 4-fold molar equivalent, drastic signal change was observed (Fig. 1(B)). It was interesting that the signal of 1.97 ppm (acetate salt of GlcNH 2) disappeared and new signal of 1.92 ppm appeared. The new peak is corresponding to sodium acetate which was produced by the reaction with sodium hydrogen bicarbonate to prepare ...

Castration (also known as testiclectomy) is any action, surgical, chemical, or otherwise, by which an individual loses use of the testicles: the male reproductive gland or gonad. Surgical castration is bilateral orchiectomy (excision of both testes), and chemical castration uses pharmaceutical drugs to deactivate the testes. Castration causes sterilization (preventing the castrated person or ...

Established in 1988, Wanda Group has become a large multinational conglomerate focusing on modern services. After 30 years of development, Wanda is now the world's leading real estate company, leading film company, leading sports company and leading children's entertainment company.

Corporate Profile - Wanda Group

A chip pan is a deep-sided cooking pan used for deep-frying. Chip pans are named for their traditional use in frying chips (called "French fries" in the United States).. Today, they are made from either aluminium or stainless steel, although in the past were commonly made from cast iron. A basket is placed inside the pan, to lower the chips into the hot cooking oil, and to raise them once cooked.
