In United States constitutional interpretation, the living Constitution (or loose constructionism) is the claim that the Constitution has a dynamic meaning or it has the properties of an animate being in the sense that it changes. The idea is associated with views that contemporaneous society should be taken into account when interpreting key constitutional phrases.

Living Constitution - Wikipedia

Health, as defined by the World Health Organization (WHO), is "a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity." This definition has been subject to controversy, as it may have limited value for implementation. Health may be defined as the ability to adapt and manage physical, mental and social challenges throughout life.

Environmental Ethics. The field of environmental ethics concerns human beings' ethical relationship with the natural environment. While numerous philosophers have written on this topic throughout history, environmental ethics only developed into a specific philosophical discipline in the 1970s. This emergence was no doubt due to the increasing awareness in the 1960s of the effects that ...
