A urinary tract infection (UTI) is an infection caused by bacteria in part of the urinary tract. In the lower urinary tract, it is known as a simple cystitis (a bladder infection). In the upper urinary tract, it is known as pyelonephritis (a kidney infection). Symptoms from a lower urinary tract infection include painful peeing and either frequent peeing or wanting to pee (or both).

Tissue Membranes. A tissue membrane is a thin layer or sheet of cells that covers the outside of the body (for example, skin), the organs (for example, pericardium), internal passageways that lead to the exterior of the body (for example, abdominal mesenteries), and the lining of the moveable joint cavities. There are two basic types of tissue membranes: connective tissue and epithelial ...
