Categories Of Biological Classification Answer Key

The system of biological classification divides organisms into a variety of categories or taxonomic ranks, starting with domains, the highest order of life. There are three domains: Eukaryota, Eubacteria, and Archaea. Following the domains are the kingdoms, which are further divided into phyla, classes, orders, families, genera, and species.

What is Biological Classification? (with pictures)

A species is the basic biological unit in the Linnaean system of classification. Table 1 lists and describes two species of oaks in the genus *Quercus*. The first letter of the genus name is always capitalized, and the first letter of the second word is always lowercase. Scientific names are italicized or underlined.
