Neuroimaging or brain imaging is the use of various techniques to either directly or indirectly image the structure, function, or pharmacology of the nervous system. It is a relatively new discipline within medicine, neuroscience, and psychology. Physicians who specialize in the performance and interpretation of neuroimaging in the clinical setting are neuroradiologists.

Research News for Treatment. Dr. Travis Tierney, a researcher and surgeon about this new therapy in Miami. He explained it is not radiation, and it will heat the contents of the tumor if directed properly. He felt the epidermoid is a viable option for treatment with this method, if the tumor is away from the bony areas.

BASIC STRUCTURE OF NERVE CELLS ("NEURONS") "Swiftly the brain becomes an enchanted loom, where millions of flashing shuttles weave a dissolving pattern—always a meaningful pattern—though never an abiding one" (Sherrington, 1940). Nerve cells comprise the "enchanted loom" that is our brain. Here are three absolutely wonderful facts about nerve cells.

The What the Hell is it Actually Called Blue Box. The cerebrum is the whole big top/outside part of the brain but it also technically includes some of the internal parts too.. Cortex means "bark" in Latin and is the word used for the outer layer of many organs, not just the brain. The outside of the cerebellum is the cerebellar cortex. And the outside of the cerebrum is the cerebral cortex.

IN DEPTH: Syringomyelia (SM -- also known as syrinx and hydromyelia, and occasionally mis-identified as Arnold Chiari malformation) is a condition of the development of fluid-filled cavities in the spinal cord, which is believed by researchers to be due to abnormal flow of cerebrospinal fluid (CSF) between the brain and the spinal cord through the foramen magnum at the base of the skull.

Syringomyelia (SM) and the Cavalier King Charles Spaniel

According to the SEER cancer statistics, 1,658,370 persons will develop new cancers in 2015 and 589,430 will die from cancer. Compared to this, the number of new primary brain tumors (BT), 22,850 or 1.4%, is relatively small. However, if one adds metastases from other cancers to the brain, the number of BT increases significantly.
