Redated from March 2009. I was a Christian recently enough to remember what it felt like to really believe the Creator of the universe talked to me, to really believe I would go to heaven and unbelievers would go to hell, to really believe that prayer made a difference.. It sure felt like I really believed that stuff. And other Christians tell me they really believe that stuff, too.

At the rate of one degree per century, global warming can barely be measured, to say nothing of being noticed, especially since temperatures in your neighborhood go up and down 50 or 60 degrees every six months, and about 20 degrees every 12 hours. One degree per century is inconsequential, and certainly not enough to cause all the things that are blamed on global warming.
